

Besma International Chem A/S

Besma International Chem A/S – a Danish chemical company since 1976. We develop, produce and sell cleaners for the industrial sector and private consumers.

We provide consultancy and advice for our customers with a view to reducing the impact on the environment as much as possible.

We comply with the standards set out in the Environmental Management System ISO 14001.

2017-11-23

To whom it may concern

As per EU regulation EF 1907/2006 Besma International Chem A/S is only a 'downstream user' without obligation to registration.

However we do only use substances with REACH registration No. and our products/cleaners are classified as per EU regulation 1272/2008 (CLP).
